

SAFETY & SECURITY

IS YOUR CAMPUS A DISASTER WAITING TO HAPPEN?

Colleges and universities are challenged to build and sustain a safe environment for all constituencies. Safety and Security issues are pervasive and touch every facet of institutional operations. While today's potential threats are inescapable, they can be navigated in ways that strengthen your institution.

The conference workshops will assist you in creating a safe and secure workplace for students and staff. Topics will address safety training & awareness, disaster recovery, securing technology, and designing homeland security curricula.

Increase your working knowledge of these important issues, gain insights into how these issues apply to your institution, and meet colleagues facing the same challenges.

Outstanding Educator Awards will be highlighted this year. Meet the award winners and learn about their special programs.
